

Mr. Pawan Kanel holds a Master's of Philosophy (M.Phil.) degree in Population Studies from the Central Department of Population Studies (CDPS), Tribhuvan University (TU). He is currently pursuing a PhD degree in Population Studies from the Faculty of Humanities and Social Sciences (FoHSS), TU.

Mr. Kanel started teaching at CDPS since August 2010, immediately after he completed his MA degree, as a part-time faculty member. He was later appointed as a full-time Lecturer of Population Studies at CDPS, TU (selected from free competition – non-reservation group) from November 2011 where he has been teaching *Demographic Methods for Population Analysis, Advanced Demographic Techniques, Quantitative Techniques (Statistics), Computer Application for Population Analysis, Poverty and Human Development* and *Research Methodology* to MA level students. He has also been a visiting faculty to various universities and colleges of Nepal.

Mr. Kanel has more than a decade's experience of conducting research works. He has been Consultant and Team Leader in numerous national and international research works. His substantive research interests are in population studies/ demography, fertility, mortality, migration, human development, reproductive health and public health. He is well versed in computer applications such as SPSS, STATA and MORTPAK.

Mr. Kanel is also a recipient of the *Nepal Bidhya Bhushan "Kha"* (2011), for securing highest marks in MA (Population Studies) with Distinction and the University Grants Commission (UGC)/Nepal Fellowship (2011) for M.Phil. in Population Studies.
